1986-90 MARKETING YEARS

Released: February 12, 1992

Montana wheat shipped to out-of-state destinations in the June 1990-May 1991 marketing year amounted to 102.0 million bushels. This is about the same as the previous marketing year when 102.1 million bushels were shipped.

Wheat shipped to the Pacific Northwest (adjusted for unaccounted disappearance) is estimated to be 109.0 million bushels. The amount of Montana wheat milled for flour was 21.0 million bushels, 3.1 million less than last year. Estimated Montana wheat exported from Pacific Northwest ports was 88.0 million bushels, 64 percent of total disposition.

Montana's share of Pacific Northwest exports was 45 percent.

Montana wheat shipped to the Pacific Northwest (adjusted for unaccounted disappearance) in the June 1991-May 1992 marketing year amounted to 159.5 million bushels. These shipments exceeded the previous year by 46 percent. The estimated amount of Montana wheat milled for flour in the Pacific Northwest was 25 million bushels, 19 percent more than last year.

Estimated Montana wheat exported from Pacific Northwest ports was 134.5 million bushels, 72 percent of total disposition.

Montana's share of wheat exported from Pacific Northwest ports was 62 percent.

1989-93 MARKETING YEARS

Released: March 1995

MONTANA STATE LIBRARY  
1515 E. 6th AVE.  
HELENA, MONTANA 59520

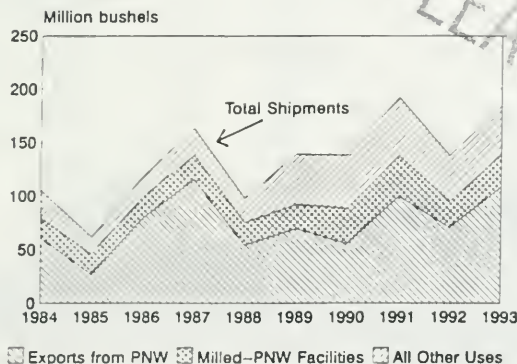

A sharp increase in beginning stocks and production caused Montana's wheat supply for the June 1993-May 1994 marketing year to increase by 37% compared with the previous marketing year. Total supply was 254.7 million bushels for the 1993 marketing year. Total disposition of wheat was 184.2 million bushels compared with 137.4 million bushels a year earlier.

Recorded wheat shipments out of Montana totaled 158.4 million bushels, nearly 48% more than last year. Pacific Northwest shipments accounted for more than 87% of this out of state movement.

Recorded shipments of 138.3 million bushels or 59% of the wheat disposition were sent to the Pacific Northwest. Of this total, 108.3 million bushels were shipped to export destinations while the remaining 30 million bushels were shipped to processing destinations. Shipments to export destinations increased 54% from last year and wheat shipped to processing destinations increased 24%.

Recorded exports of hard red spring, hard red winter, and durum wheat from Pacific ports totaled 108.3 million bushels. Montana's recorded share of those exports was 40%, a 12-point increase over the 1984-85 marketing year.

Although 1994's wheat crop was sharply lower than 1993's record year, large carryover stocks plus 1994 production provided a total supply of 241.1 million bushels, only 5% below 1993. Total wheat disposition was 190.6 million bushels for the 1994 marketing year, the highest since the 1991 and 3% more than last year.

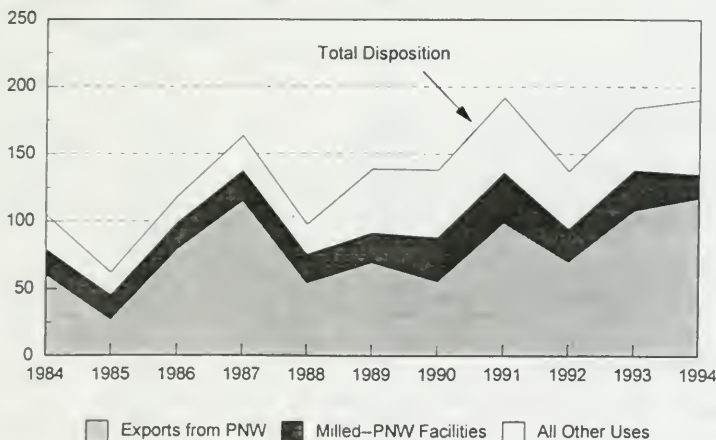

Recorded wheat shipments out of Montana totaled 154.1 million bushels, 3% below a year ago. The Pacific Northwest was the destination of nearly 88% of the wheat shipped out-of-state. The wheat bound for export through the Pacific Northwest ports increased to 117.7 million bushels, up 9 % from last season. Processing destinations in the Pacific Northwest accounted for 17.8 million bushels, down sharply from 30.0 million bushels in 1993.

Inspected exports of hard red spring, hard red winter, and durum wheat from Pacific ports totaled 274.3 million bushels, up slightly from a year ago. Montana's recorded share of those exports was 43%, a 3 point increase from the 1993 marketing year.

1992-96 MARKETING YEARS

Released: October 1997

PLEASE RETURN

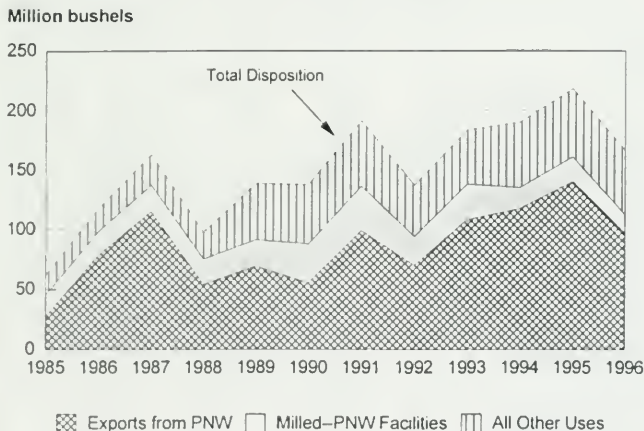

The smallest carryover stocks level since 1974 and a much smaller all wheat crop resulted in total wheat supply for the 1996-1997 marketing year dropping 17 percent. Total all wheat supply was 204.5 million bushels. Total disposition, at 167.3 million bushels, fell 24 percent from the previous marketing year. Ending stocks, at 37.2 million bushels, were up 35 percent from the previous year, but still 20 percent below the 5 year average.

Shipments out of state, at 137.4 million bushels, were down 32 percent from the same period a year ago. Shipments to the Pacific Northwest totaled 113.1 million bushels, or 82 percent of the total shipped out of state. Pacific Northwest export destinations accounted for 97.4 million bushels, while Pacific Northwest processing terminals accounted for 15.7 million bushels.

Inspected exports of hard red winter, hard red spring, and durum wheat from Pacific ports were 210.6 million bushels, down 13 percent from the previous year. Montana's recorded share of those exports was 46% down 5 points from the 95-96 marketing year.

# UTILIZATION

1993-97 MARKETING YEARS

Released: October 1998

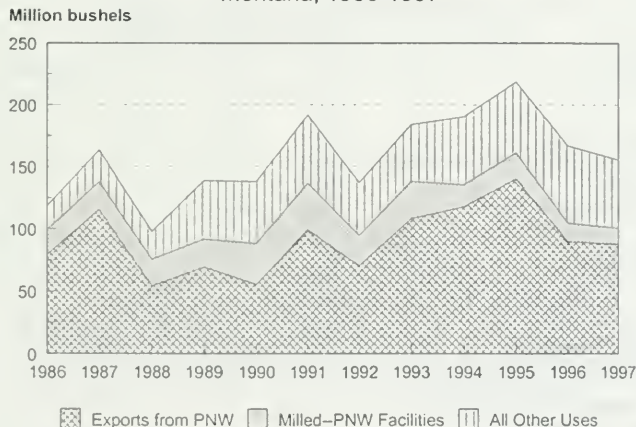

The large 1997 wheat crop plus carryover stocks from the previous year created the 1997-98 marketing year total supply of 222.8 million bushels, 9 percent higher than a year earlier, but 10 percent lower than the 1995-96 marketing year. The 1996-97 marketing year total supply was the smallest since 1974. Total disposition of 155.8 million bushels was 7 percent lower than the previous marketing year. Ending stocks of 67.0 million bushels were 80 percent above last year and at the highest since 1993-94 marketing year.

Shipments out of state, at 124.0 million bushels, were down 3 percent from the last marketing year. Shipments to the Pacific Northwest totaled 100.8 million bushels, 4 percent lower than the previous year, and accounted for 81 percent of the total shipped out of state. Pacific Northwest export destinations accounted for 88.0 million bushels, while Pacific Northwest processing terminals accounted for 12.8 million bushels.

Inspected exports of hard red winter, hard red spring, and durum wheat from Pacific ports were 195.5 million bushels, down 7 percent from the previous year. Montana's recorded share of those exports was 45 percent, up two percentage points from the 1996-97 marketing year.

# 1994-98 MARKETING YEARS

Released: August 1999

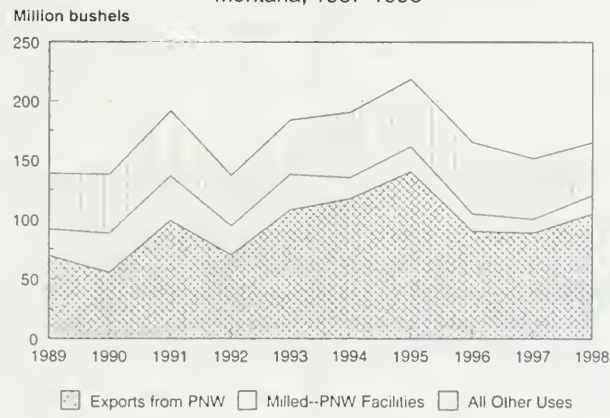

The 1998-99 marketing year total supply was 235.8 million bushels, 8 percent higher than a year earlier, and 16 percent above the small 1996-97 marketing year. Total supply is calculated by adding 1998 all wheat production to June 1998 all wheat stocks. Total disposition of 165.2 million bushels was 9 percent more than quantity marketed during the 1997-98 marketing year. Ending stocks of 70.6 million bushels were 5 percent above last year and at the highest carryover stocks since 1988-89 marketing year. Wheat utilization reports are assembled from Grain Movement Reports and Grain Market News by the Montana Agriculture Statistics Service. Funding was provided by the Montana Wheat and Barley Committee

Montana shipped 139.4 million bushels out of state during the 1998-99 marketing year, 13 percent more than moved during the same period last year. Shipments to the Pacific Northwest totaled 120.5 million bushels, 20 percent more than the 1997-98 season, and accounted for 86 percent of the wheat shipped out of state. Pacific Northwest export destinations accounted for 105.0 million bushels, while Pacific Northwest processing terminals accounted for 15.5 million bushels.

Inspected exports of hard red winter, hard red spring, hard white, and durum wheat from Pacific ports were 227.0 million bushels, up 16 percent from the previous year. Montana's recorded share of those exports was 46 percent, up one point from the 1997-98 marketing year, and the highest percentage since 1995.

## Wheat Disposition and Usage Montana, 1987-1998

1995-1999 MARKETING YEARS

Released: October 2000

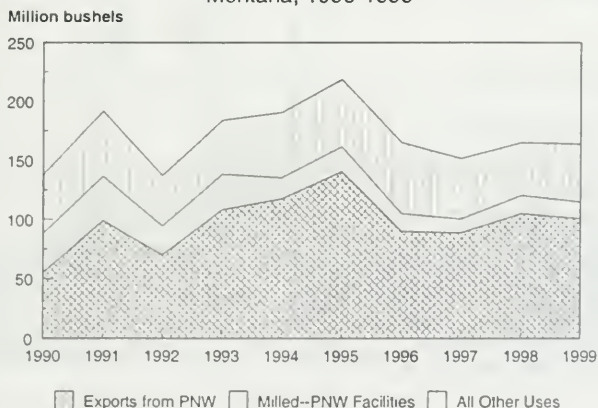

The 1999-2000 marketing year total supply was 224.9 million bushels, 5 percent lower than a year earlier, but 11 percent above the small 1996-97 marketing year. Total supply is calculated by adding 1999 all wheat production to June 1999 all wheat stocks. Total disposition of 164.1 million bushels was 1 percent less than the quantity marketed during the 1998-99 marketing year. Ending stocks of 60.9 million bushels were 14 percent less than last year and at the lowest carryover stocks since 1996-97 marketing year. Wheat utilization reports are assembled from Grain Movement Reports and Grain Market News by the Montana Agriculture Statistics Service. Funding was provided by the Montana Wheat and Barley Committee

Montana shipped 148.3 million bushels out of state during the 1999-00 marketing year, 6 percent more than moved during the same period last year. Shipments to the Pacific Northwest totaled 115.0 million bushels, 5 percent less than the 1998-99 season, and accounted for 78 percent of the wheat shipped out of state. Pacific Northwest export destinations accounted for 100.8 million bushels, while Pacific Northwest processing terminals accounted for 14.3 million bushels.

Inspected exports of hard red winter, hard red spring, hard white, and durum wheat from Pacific ports were 207.4 million bushels, down 9 percent from the previous year. Montana's recorded share of those exports was 49 percent, 3 percent higher than the 1998-99 marketing year and the highest percentage since 1995.

## 1996-2000 MARKETING YEARS

Released: October 1, 2001

The June 2000 - May 2001 marketing year total supply was 196.1 million bushels, 13 percent lower than a year earlier, and 17 percent below the 1998-99 marketing year. Total supply is calculated by adding 2000 all wheat production to June 2000 all wheat stocks. Total disposition of 144.7 million bushels was 12 percent less than the quantity marketed during the 1999-2000 marketing year. Ending stocks of 51.4 million bushels were 16 percent less than last year and at the lowest carryover stocks since 1996-97 marketing year. Wheat utilization reports are assembled from Grain Movement Reports and Grain Market News data by the Montana Agriculture Statistics Service. Funding was provided by the Montana Wheat and Barley Committee

Montana shipped 133.0 million bushels out of state during the 2000- 2001 marketing year, 10 percent less than moved during the same period last year. Shipments to the Pacific Northwest totaled 99.8 million bushels, 13 percent less than the 1999- 2000 season, and accounted for 75 percent of the wheat shipped out of state. Pacific Northwest export destinations accounted for 88.8 million bushels, while Pacific Northwest processing terminals accounted for 11.0 million bushels.

Inspected exports of hard red winter, hard red spring, hard white, and durum wheat from Pacific ports were 204.4 million bushels, down 1 percent from the previous year. Montana's recorded share of those exports was 43 percent, 6 points below the 1999-2000 marketing year and the lowest percentage since 1996.

## UTILIZATION

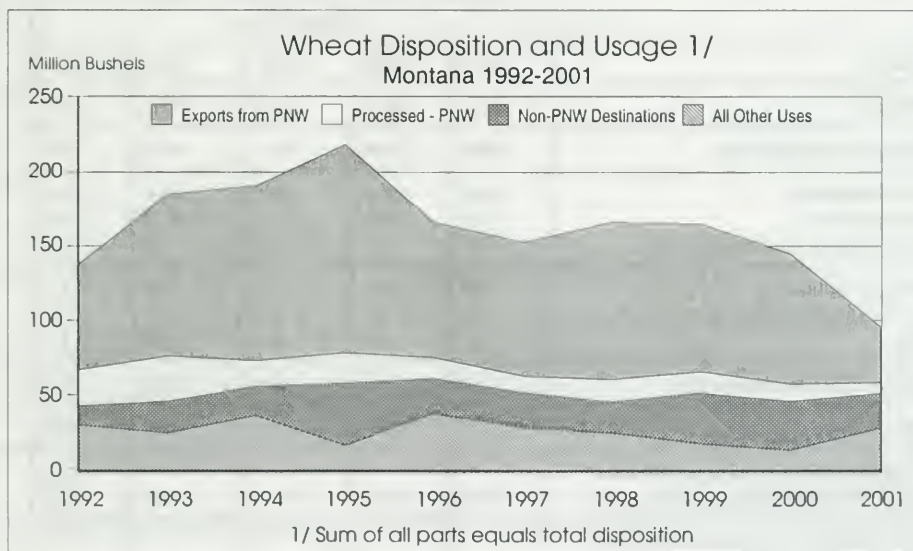

### 1997-2001 MARKETING YEARS

Released: September 17, 2002

The June 2000 - May 2001 marketing year total wheat supply was 148.0 million bushels, 25 percent lower than a year earlier, and 34 percent below the 1998-99 marketing year. Total supply is calculated by adding 2001 all wheat production to June 2000 all wheat stocks. Total disposition of 95.7 million bushels was 34 percent less than the quantity marketed during the 1999-2000 marketing year. Ending stocks of 52.3 million bushels were 2 percent more than last year. Wheat utilization reports are assembled from Grain Movement Reports and Grain Market News data by the Montana Agriculture Statistics Service. Funding was provided by the Montana Wheat and Barley Committee.

Montana shipped 67.7 million bushels out of state during the 2000 - 2001 marketing year, 48 percent less than moved during the same period last year. Shipments to the Pacific Northwest totaled 44.8 million bushels, 49 percent less than the 1999 - 2000 season, and accounted for 66 percent of the wheat shipped out of state. Pacific Northwest export facilities accounted for 34.7 million bushels, while Pacific Northwest processing terminals accounted for 7.6 million bushels.

Inspected exports of hard red winter, hard red spring, hard white, and durum wheat from Pacific ports were 195.5 million bushels, down 4 percent from the previous year. Montana's recorded share of those exports was 19 percent, 24 points below the 1999-2000 marketing year.

1998-2002 MARKETING YEARS

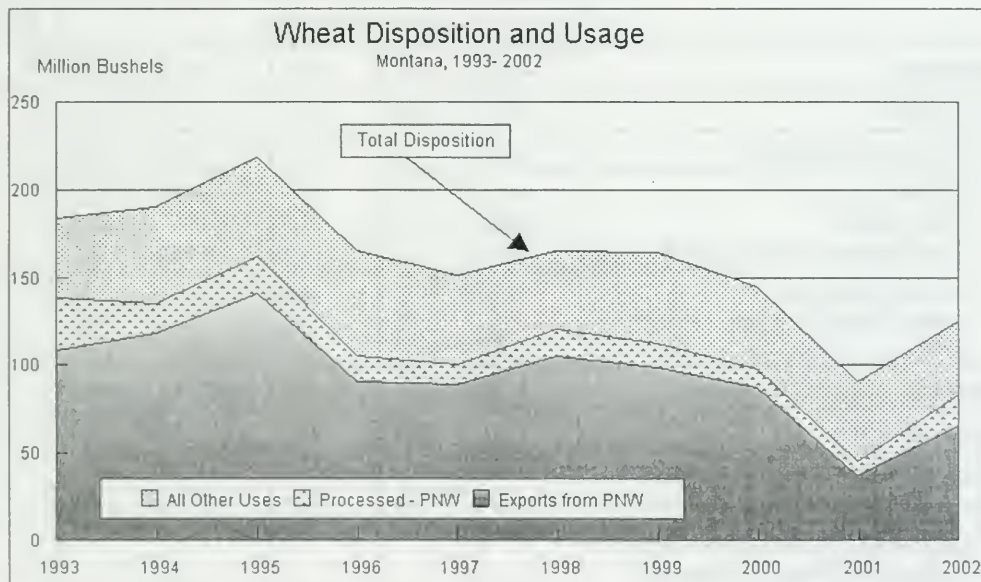

Released: October 1, 2003

MONTANA  
1515

The June 2001 - May 2002 marketing year total wheat supply was 167.2 million bushels, 13 percent more than a year earlier, but 15 percent below the 1999-00 marketing year. Total supply is calculated by adding 2002 all wheat production to June 2002 all wheat stocks. Total disposition of 125.6 million bushels was 38 percent more than the quantity marketed during the 2000-2001 marketing year. Ending stocks of 41.6 million bushels were 27 percent less than last year. Wheat utilization reports are assembled from Grain Movement Reports and Grain Market News data by the Montana Agriculture Statistics Service. Funding was provided by the Montana Wheat and Barley Committee.

Montana shipped 115.0 million bushels out of state during the 2001 - 2002 marketing year, 70 percent more than moved during the same period last year. Shipments to the Pacific Northwest totaled 82.8 million bushels, 85 percent more than the 2000 - 2001 season, and accounted for 72 percent of the wheat shipped out of state. Pacific Northwest export facilities accounted for 65.6 million bushels, while Pacific Northwest processing terminals accounted for 17.2 million bushels.

Inspected exports of hard red winter, hard red spring, hard white, and durum wheat from Pacific ports were 200.2 million bushels, up 2 percent from the previous year. Montana's recorded share of those exports was 33 percent, 14 points above the 2000-2001 marketing year.

1999-2003 MARKETING YEARS

Released: October 4, 2004

The June 2002 - May 2003 marketing year total wheat supply was 183.9 million bushels, 9 percent more than a year earlier, and 24 percent above the 2000-01 marketing year. Total supply is calculated by adding 2003 all wheat production to June 2003 all wheat stocks. Total disposition of 143.5 million bushels was 14 percent more than the quantity marketed during the 2001-2002 marketing year. Ending stocks of 40.4 million bushels were 3 percent less than last year. Wheat utilization reports are assembled from Grain Movement Reports and Grain Market News data by the Montana Agriculture Statistics Service. Funding was provided by the Montana Wheat and Barley Committee

Montana shipped 136.1 million bushels out of state during the 2002 - 2003 marketing year, 16 percent more than moved during the same period last year. Shipments to the Pacific Northwest totaled 95.7 million bushels, 16 percent more than the 2001 - 2002 season, and accounted for 70 percent of the wheat shipped out of state. Pacific Northwest export facilities accounted for 69.8 million bushels, while Pacific Northwest processing terminals accounted for 22.8 million bushels.

Inspected exports of hard red winter, hard red spring, hard white, and durum wheat from Pacific ports were 208.3 million bushels, up 4 percent from the previous year. Montana's recorded share of those exports was 35 percent, 2 points above the 2001-2002 marketing year.

## 2000-2004 Utilization

Released: October 5, 2005

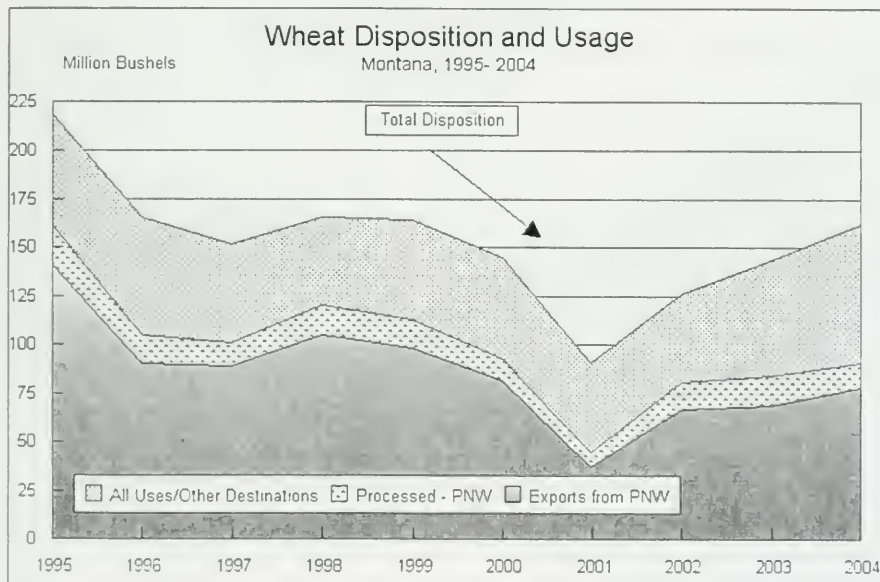

ATE LIBRARY  
5th AVE.  
JAN 11 2005

The June 2004 - May 2005 total wheat supply was 213.6 million bushels, 16 percent more than the previous year. Total supply is calculated by adding 2004 all wheat production to June 2004 all wheat stocks. Total disposition during June 2004 - May 2005 was 162.3 million bushels, 13 percent more than the quantity marketed during the previous year. Ending stocks of 51.3 million bushels on June 1, 2005 was 27 percent higher than the previous year. Wheat utilization reports are assembled from Grain Movement Reports and Grain Market News data by the USDA, NASS, Montana Field Office. Funding was provided by the Montana Wheat and Barley Committee

Montana shipped 133.3 million bushels out of state during June 2004 - May 2005, 3 percent more than moved during the same period the prior year. Shipments to the Pacific Northwest totaled 90.8 million bushels, 8 percent more than the 2003 - 2004 season, and accounted for 73 percent of the wheat shipped out of state. Pacific Northwest destinations accounted for 78.2 million bushels, while Pacific Northwest processing destinations accounted for 12.6 million bushels.

Inspected exports of hard red winter, hard red spring, hard white, and durum wheat from Pacific ports were 239.3 million bushels, up 16 percent from the previous year. Montana's recorded share of those exports was 33 percent, the same as the previous year

STATE PUBLICATIONS COLLECTION

OCT 02 2007

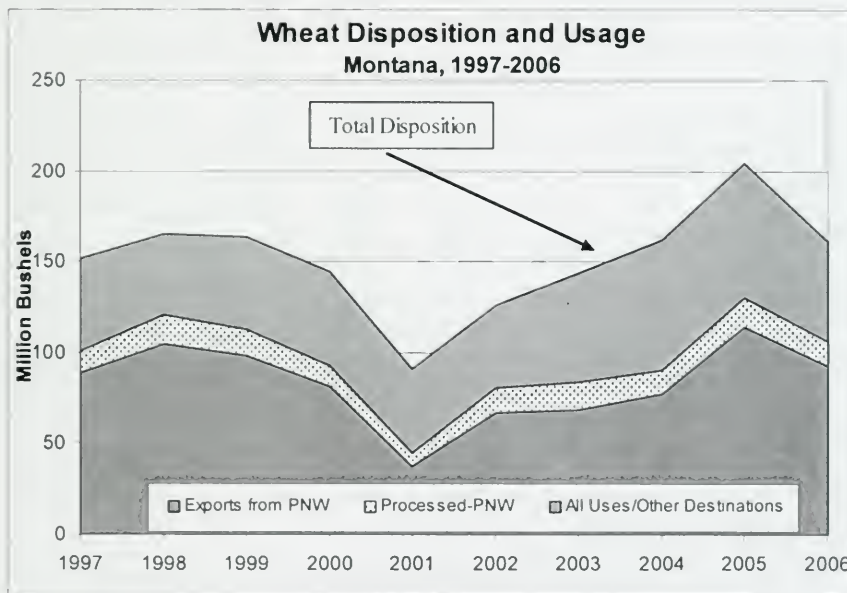

Released: October 1, 2007

MONTANA STATE LIBRARY  
1515 E. 6th AVE.  
HELENA, MONTANA 59620

The total wheat supply in Montana for June 2006-May 2007 was 192.2 million bushels, down 21 percent from the previous year. Total supply is calculated by adding the all wheat production in 2006 to the June 2006 all wheat stocks. Total disposition during this period was 161.7 million bushels, 21 percent less than the previous year. The ending stocks on June 1, 2007 were 30.5 million bushels, down 22 percent from the previous year. Information on the wheat utilization report is assembled from Grain Movement reports and Federal Grain Inspection Service data by the USDA, NASS, Montana Field Office.

Montana shipped 129.8 million bushels out of state during June 2006-May 2007, 22 percent less wheat than what was moved out of state the prior year. A total of 106.2 million bushels were sent to Pacific Northwest destinations, accounting for 82 percent of the out of state total. Export facilities in the Pacific Northwest received 92.4 million bushels, and processing destinations received 13.8 million bushels.

Inspected exports of hard red winter, hard red spring, hard white, and durum wheat from Pacific ports were 241.3 million bushels, up 5 percent from the previous year. Montana's recorded share of those exports was 38 percent, down 24 percent from the previous year.
